

SCHWIMMING TECHNIQUE HEAVY-FILTER

Material: PVC

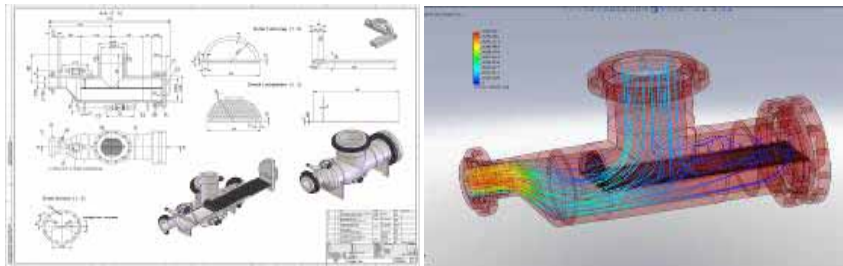

Construction: 2010

Medium: Chlorine-Water

Dimensionen: Ø140/200 PN6 31kg

Process: Glue
Hot gas welding

ENVIRONMENTAL FRANCE RINGJET-FILTER

- Material:** PP
- Construction:** 2011
- Medium:** various chemicals
- Dimensionen:** Ø200-140 PN10
- Process:** Mirror welding
Hot gas welding
Sleeve welding

GALVANIC BATH HEAT EXCHANGER

Material: PP

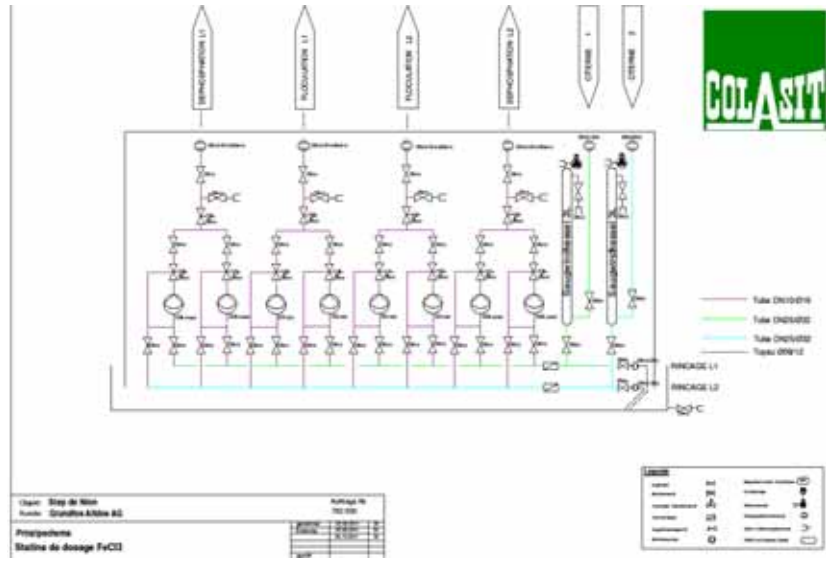

Construction: 2011

Medium: various chemicals

Dimensions: Ø20

Measurements: 500x540x80/Ø20

Process: Mirror welding
Hot gas welding
Sleeve welding

SPINNING-POT FOR A VISCOSE FILAMENT SPINNING MACHINE

Technical data

Material: PP

Construction: Prefabricated milled and drilled parts, assembled and welded

CLEANING AND STORAGE TUB WITH AIR EXTRACTION FOR THE CHEMICAL TREATMENT OF PRINTING CYLINDERS

Technical data

Material: PP

Construction: Welded construction

PROTOTYPE IN 3 PARTS

Technical data

Material: PVC

Construction: Individual parts are thermally moulded, machined, milled, welded together and filled.

CANDLE FILTER FOR SEPARATING SOLID MATTER

Technical data

Material: PP / GFK

Construction: Milled parts in PP
welded in FRP

COLLECTING TROUGH FOR A VISCOSE FILAMENT SPINNING MACHINE

Technical data

Material: PP

Construction: Thermally formed longitudinal parts with welded side walls. Welded screw bushings

MIXING SYSTEM FOR A BIO TECHNICAL PROCESS

Technical data

Material: PVDF / PP / PUR

Construction: Internal casing in PVDF, insulation in foamed PUR lined with PP

VESSEL IN THE VISCOSE PRODUCTION

Technical data

Material: PP

Technical data: Parts CNC milled and welded
